

Business IQ

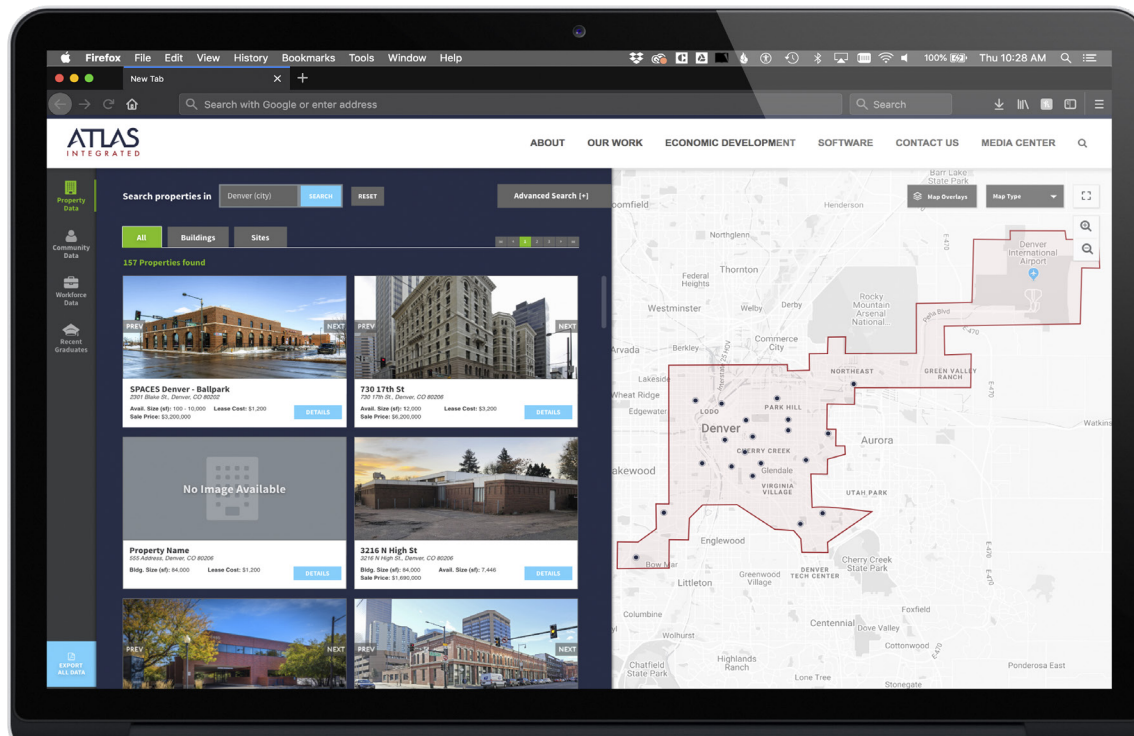

INDUSTRY FIRST SOFTWARE FOR YOUR COMMUNITY

Business IQ is an integral component of **Atlas IQ**. It is a tool that uses Esri data to display comprehensive property and community data for site selectors, commercial real estate brokers, and prospective companies looking to make intelligent location decisions. Business IQ is comprised of data visualization sets and aesthetically strong infographics that help tell a community's story and allows users access to up to 46 different Esri reports of a client's choosing.

Watch our video walkthrough to see **Business IQ** in action at atlas-integrated.com/software
